

MLTP- 1245

Modular Line Thermal Printer

CompArt International introduce new printer line, which expands our product portfolio. The MLTP-1245 line presents smart "Plug-In" solution and is ideal for small and medium electronic equipment manufacturers.

Features of MLTP-1245 make it excellent for wide range of applications such as measuring, security, control and medical equipment, POS communication, scales and data terminals

MLTP-1245 printers are equipped with fast (max 60mm/sec) Seiko Instruments thermal mechanisms, integrated RS-232 interface and the MLTP-1245 A/B also with automatic cutter.

MLTP-1245 can also be battery driven and can be easily mounted into portable devices.

This product line features outstanding characteristics to price ratio.

Printer	MLTP-1245	MLTP-1245-A/B
Printer mechanism	LTP1245R-C384-E	
Paper width / Print width (mm)	58mm / 48mm	
Print speed (max.)	60 mm/s	
Dots per line	384	
Character matrix	16 x 16, 24 x 10, 24 x 12, 8 x 9, 8 x 13 dots	
Characters per line	32, 38 or 48 ordinary characters 16, 19 or 24 double-width characters	
Cutter	No cutter	MLTP-1245-A: full cut MLTP-1245-B: partial cut
Barcodes	Interleaved 2/5, EAN-13	
Interface	Compart IF1245 - RS232C	
Operating voltage	8.4V DC	
Dimensions (mm) (WxHxD)	85 x 35 x 52	95 x 44 x 58
Operating conditions	-20 +50C, 10-80% RH ¹	
Storage conditions	-30 +70C, 10-80% RH	
Lifetime	Thermal head	100 mln pulses or 50km or more
	Cutter	0.3 mln cuts
Certificate	CE	
Warranty	12 months	
Weight	110g	190g
